

COLLECT-N-GO

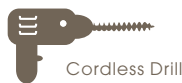

SAFETY FIRST

- The Soil Auger working end is a sharp object. Always carry with working end pointed away from yourself or anyone else.
- Transport Soil Auger in a flat position
- Recommended to wear gloves for hand protection.
- Use Security Tie to prevent loss during transport.

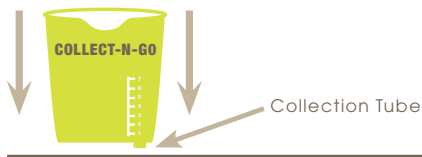

DIRECTIONS FOR USE

- 1). Attach Soil Auger to the handheld drill motor.

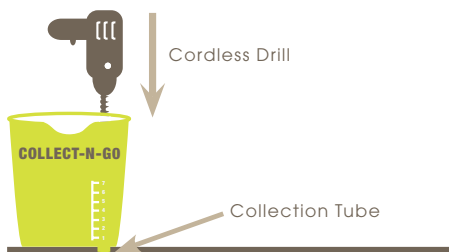

Cordless Drill

- 2). To extract soil sample, place bucket on ground w/ collection tube contacting the ground. Firmly press bucket downwards using handle grip on bucket.

Collection Tube

- 3). Insert Soil Auger into collection tube until contacting ground. Turn on drill motor w/ a clockwise rotation and press down until desired depth is reached.

Cordless Drill

Collection Tube

- 4). Pull drill motor straight up until Soil Auger is out of collection tube, then stop drill motor rotation.
- 5). Proceed to next subsample location in the field. Then repeat steps 2-4 until all subsamples are collected.
- 6). Pour soil sample using pour spout into lab container to be sent to the lab for analyzing.

PRODUCT WARRANTY

Limited Lifetime Warranty

This warranty covers all three major components in the *Collect-N-Go* kit consisting of soil auger, collection bucket and security tie for as long as owned by the original purchaser.

WHAT DAMAGE IS COVERED?

Breakage or damage that results in the component unusable as it is intended to be used as part of the *Collect-N-Go* kit.

WHAT DAMAGE IS NOT COVERED?

Normal wear, component breakage, damage or loss due to misuse or abuse whether intentional or not will not be covered.

WHAT WE WILL DO TO CORRECT DAMAGED COMPONENT(S)?

If we deem component was damaged due to normal use, then we will replace component at no cost including shipping and handling charges to the customer.
