Arcadia, IN 46030 | (855) 502-3872

**PROTECTION**

- / A singular fill point with a closed system connection yields drip-free transfer of a product.
- / Float valves ensure tanks fill completely and will not overflow.
- / The applicator and environment are protected from off-target chemical exposure.

**PRODUCTIVITY**

- / A high flow Dura-Pump™ and singular fill point provides faster fill times and efficiencies.
- / Quickly connect the Dry Poppet, then flip the pump's switch.
- / The sprayer is filled up to 15GPM, while the applicator can multi-task without concern of environmental or personal herbicide exposure.

# DURA-PROfill™

Turf sprayer **Closed-Fill system**  
Designed for the **PRO**

BE A PRO...use a Dura-PROfill™

**PROFICIENT**

- / The system is designed to easily recirculate product in the supply tank.
- / Recirculation ensures optimal mixture for the best application.

**PROFESSIONAL**

- / A closed-fill system is the hallmark of good stewardship, compliance and the epitome of professionalism.
- / Responsible business practices and a professional image pay dividends through customer retention and referrals.
