LevALERT

Bin Level Indicators

DISTRIBUTED BY:

Install LevALERT bin level indicators on the outside of any bin. In one quick glance, know the level of material in your bin.

TOP BENEFITS

Stay Safe: Know your bin levels from the ground. Avoid climbing dangerous bin ladders/stairs.

Planning Aid: Install indicators in strategic locations to provide a signal on when to stop filling, order product, turn on a motor, etc.

Dependable: You can trust our bin level indicators to work all of the time, in even the harshest of conditions. **5 year warranty!**

IMPORTANT FEATURES

Highly visible: Premium 3M reflective indicator easily visible day or night from over 300 feet.

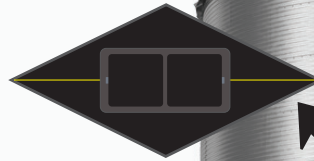

No electricity needed: Completely mechanical operation. Automatically resets.

Easy installation: Install our bin level indicators in under 5 minutes from the outside of the bin.

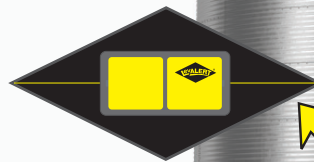

Common Bin Types: Wet/dry holding bins, overhead bins, feed bins, seed bins, industrial bins, and many more!

Uses: Grains, feeds, seeds, fertilizer, powders, plastic pellets, sand, salt ... virtually anything stored in a bin!

3 INDICATORS PER BIN IS COMMON!

BLACK INDICATOR
Material is below bin indicator.

YELLOW INDICATOR
Material is at or above bin indicator.
